EDUCATION

University of California, Berkeley

B.S. Business Administration; Minor: Data Science

Aug 2024 – May 2027

Berkeley, CA

- Data Science Internship Abroad, London, UK (Spring 2026)

Stanford University

Relevant Coursework

Aug 2022 – Jan 2023

Stanford, CA

- Redefining Creativity with AI (prompt design, AI ethics, evaluation); Data 101 (ACS & city open data)

EXPERIENCE

Valency Systems Inc.

Business Operations Intern

05/2026 – 08/2026

Berkeley, CA

- Launched and built the company's compliance program from the ground up, establishing 33 SOC 2 controls and authoring 20 security policies across six modules while driving final readiness toward Type 2 compliance and unlocking customer partnerships.
- Built out the organization's risk register in Vanta, cataloging 23 risks with likelihood, impact, and assigned mitigation owners to give leadership a single view to prioritize and track remediation.
- Led red-teaming exercises across REST API endpoints, GraphQL operations, and authenticated versus unauthenticated attack surfaces, scripting test cases to uncover and close 10 security gaps in 2 months.
- Built a three-year compliance schedule spanning SOC 2, ISO 27001, and GDPR, sequenced from analysis of regulatory developments and governance-risk dependencies.

Hand in Hand International

Operations Intern

02/2026 – 05/2026

London, UK

- Co-authored a GDPR- and DSA-aligned responsible AI policy and trained eight nontechnical staff on appropriate AI use, reducing approximately six hours of manual work per week.
- Designed and deployed an onboarding workflow using the Anthropic API and historical onboarding data as a reference dataset; tested and refined prompts, evaluated outputs against a manual baseline, and scaled reach to 50,000 women-led enterprises through 2030.
- Defined data-cleaning rules and removed duplicate and incomplete records across 2,000 donor and recipient records, improving downstream data quality.

SubscriptionFlow

Data Science Intern

12/2025 – 02/2026

London, UK

- Built a dashboard tracking A/B-test variants, retention, and cohort behavior across 1,200+ active users; translated findings into product recommendations for prioritizing features by user value and implementation effort.
- Partnered with Product and Marketing to analyze user behavior and Voice of User feedback, identifying retention patterns and informing roadmap decisions.

MindMunch

Product Intern

03/2025 – 01/2026

San Francisco, CA

- Ran 8 campaigns across UC Berkeley and Georgia Tech reaching 5,000+ students, driving 600 sign-ups at a \$3 cost per acquisition.
- Cleaned and analyzed 1,500+ beta-user records in Python (pandas), surfacing onboarding drop-off that drove a sign-up flow redesign.

PROJECTS

Principia Interdisciplinary Magazine

Co-Founder

10/2024 – Present

- Co-led the end-to-end launch and scaling of an interdisciplinary magazine for underrepresented student researchers, growing from 0 to 9+ issues and 8,000+ readers and securing independent funding.

Berkeley Business Academy for Youth, Haas School of Business

Business & AI Mentor

01/2025 – 01/2026

Berkeley, CA

- Designed a business curriculum covering north-star metrics and pitch communication; taught 100+ students and coached eight teams, including two winning teams.

SKILLS & TOOLS

Product: roadmapping, A/B testing, user research, cohort analysis, Voice of User, go-to-market

Governance, Risk & Compliance: SOC 2, GDPR, DSA, ROPA, risk register, audit readiness

Data & AI: Python (pandas, NumPy), data analysis, R, Tableau, Anthropic API, prompt design, MCP

Tools: GitHub, Vanta, HubSpot, Figma, VS Code | **Languages:** English, Spanish
