EDUCATION

University of California, Berkeley

B.S. Business Administration; Minor: Data Science

Aug 2024 – May 2027

Berkeley, CA

- Data Science Internship Abroad, London, UK (Spring 2026)

Stanford University

Relevant Coursework

2023

Stanford, CA

- Redefining Creativity with AI (prompt design, AI ethics, evaluation); Data 101 (ACS & city open data)

EXPERIENCE

Valency Systems Inc.

Business Operations Intern

05/2026 – 08/2026

Berkeley, CA

- Unlocked \$25,000 in enterprise partnerships with customers by building the company's SOC 2 program to Type 2 readiness, delivering 76 controls and 20 security policies across six modules within 3 months.
- Built the organization's risk register of 23 risks with likelihood, impact, and mitigation owners, then ran red teaming across REST API and GraphQL surfaces that closed 10 security gaps in 2 months and hardened the platform ahead of the Type 2 audit.
- Analyzed 4 competitors and 3 emerging technologies across AI and compliance, delivering a market analysis that reprioritized the product roadmap toward AI governance tooling.
- Planned 5 company summits and conferences across UC Berkeley and London on Luma, managing vendors and procurement and capturing onsite customer data that generated 200 signups, then building reports that streamlined planning for future events.

Hand in Hand International

Operations Intern

02/2026 – 05/2026

London, UK

- Analyzed business performance and income data from women-led enterprises in Python, building a program dashboard that fed the organization's endline impact report ("Climbing Out of Poverty"), which documented 6,336 jobs created.
- Sourced and led a migration to a nonprofit-friendly CRM, transferring and cleaning 2,000+ donor and beneficiary records and keeping the rollout on a 3-month timeline, giving staff a system that enabled targeted drip email campaigns to nurture donor prospects, gathering \$40K more in donations.
- Co-authored a GDPR- and DSA-aligned AI use policy and led AI-literacy training for 11 nontechnical staff, cutting manual work roughly 6 hours per week.
- Used the Anthropic API to map and streamline the donor journey and its touchpoints, feeding a structured data table that staff pull from for annual reports and cutting administrative time roughly 21%.

SubscriptionFlow

Data Science Intern

12/2025 – 02/2026

San Francisco, CA

- Built a Tableau dashboard tracking 6 A/B-test variants, retention, and cohort behavior across 1,200+ active users, translating findings into a self-serve downgrade flow projected to lift retention 12%.
- Ran cohort and churn analysis in Python with Product and Marketing on user behavior and Voice of User feedback, surfacing retention drivers that informed an onboarding redesign projected to cut first week churn 3%.

PROJECTS

Principia Interdisciplinary Magazine

Co-Founder

10/2024 – Present

- Co-led the end-to-end launch and scaling of an interdisciplinary magazine for underrepresented student researchers, growing from 0 to 9+ issues and 8,000+ readers and securing independent funding.

Berkeley Business Academy for Youth, Haas School of Business

Business Mentor

01/2025 – 01/2026

Berkeley, CA

- Designed a business curriculum covering north-star metrics and pitch communication; taught 100+ students and coached 8 teams, including 2 winning teams.

SKILLS & TOOLS

Product: roadmapping, A/B testing, user research, cohort analysis, Voice of User, go-to-market

Governance, Risk & Compliance: SOC 2, GDPR, HIPAA, DSA, ROPA, risk register, audit readiness

Data & AI: Python (pandas, NumPy), data analysis, R, Tableau, Anthropic API, prompt design, MCP

Tools: GitHub, Vanta, HubSpot, Figma | **Languages:** Spanish (fluent)
